English (Upper-intermediate, IELTS overall 6.0), Russian (native)

## About me

High result achiever. I'm interested in new technologies. I like to read professional literature. I've participated in a lot of programming competitions. Also, I always try to find the best application for my knowledge and my skills.

## Key skills

I've worked with the next technologies, APIs and web-frameworks: RabbitMQ, SOAP, Docker, Spring, Java Persistence, Laravel, OctoberCMS, ZeroMQ, and WAMP protocol.

## Interests

Reading fantastic literature, science literature such as psychology. Sometimes, I may play computer games, develop small projects to improve my own life.
